The Journal of Systems and Software

Volume 38, Number 1, July 1997

Special Issue on Achieving Quality in Software

Contents

Guest Editor's Corner
Achieving Quality in Software 1
Sandro Bologna

Evolving and Packaging Reading Technologies 3
Victor R. Basili

Analysis of Fault Generation Caused by Stress During Software Development 13
Tsuneo Furuyama, Yoshio Arai, and Kazuhiko Iio

Poisson Analyses of Defects for Small Software Components 27
William M. Evanco

Metrics and Analyses in the Test Phase of Large-Scale Software 37
E. Obara, T. Kawasaki, Y. Ookawa, and N. Maeda

A Case Study in Branch Testing Automation 47
Antonia Bertolino, Raffaela Mirandola, and Emilia Peciola

Software Quality Classification Model Based on McCabe's Complexity Measure 61
Ryouei Takahashi

Practical Concurrent Software Evaluation for Certification 71
Dieter Welzel and Hans-Ludwig Hausen

In Search of the Customer's Quality View 85
T. Stålhane, P. C. Borgersen, and K. Arnesen

Process Improvement through Process Modelling 95
P. Coppola and P. Panaroni

Biographies 103

(continued)

Volume 38, Number 2, August 1997

Contents

Editor's Corner
"Good Enough" Software—A Unique American Advantage 105
Robert L. Glass

Multithreaded Transaction Processing in Distributed Systems 107
Suresh B. Ravoor and Johnny S. K. Wong

Optimistic Concurrency Control Protocol for Real-Time Databases 119
Kwok-wa Lam, Kam-yiu Lam, and Sheung-lun Hung

Object-Oriented Software Design Utilizing Quality Function Deployment 133
Mekki I. Elboushi and Joseph S. Sherif

A Study of Software Portability Evaluation 145
Mitsuari Hakuta and Masato Ohminami

Production Scheduling: An Interactive Graphical Approach 155
J. Steve Davis and J. J. Kanet

An Approach for Developing Domain Specific CASE Tools and Its Application to Manufacturing Process Control 165
Douglas Troy and Robert McQueen

Biographies 193

Volume 38, Number 3, September 1997

Contents

Editor's Corner
Is There Anything "Time-Honored" In the Field of Software? 195
Robert L. Glass

Achieving Requirements Reuse: A Domain-Specific Approach from Avionics * 197
W. Lam

An Analysis of Errors in a Reuse-Oriented Development Environment 211
William M. Thomas, Alex Delis, and Victor R. Basili

Evaluating Predictive Quality Models Derived from Software Measures: Lessons Learned 225
Filippo Lanubile and Giuseppe Visaggio

All-Uses vs Mutation Testing: An Experimental Comparison of Effectiveness 235
Phyllis G. Frankl, Stewart N. Weiss, and Cang Hu

An Empirical Evaluation of Factors Influencing Expert Systems Effectiveness 255
Girish H. Subramanian, Gayle J. Yaverbaum, and Stephen J. Brandt

(continued)

Software-Engineering Process Simulation Model (SEPS) 263
Chi Y. Lin, Tarek Abdel-Hamid, and Joseph S. Sherif

Biographies 279

Volume Contents 281

* Editor's Note: During the review process, this paper received higher marks than any I have processed during my 12 years as Editor of JSS.
